

## Technical Data Sheet

### Regular Roll Length

50 m

### Max Width

Test Method: DIN EN ISO 2286-1

5 m

### Weight

360 ± 20 gsm

### Thickness

0.37 ± 0.02 mm

### Tensile Strength (W/F)

Test Method: DIN 53354

290/260 kg / 5cm

### Tear Resistance (W/F)

Test Method: DIN 53363

33/30 kg

### Temperature Range

Test Method: DIN 53361

-40 ~ +90 °C

### Printer Types

- UV
- LATEX

### Applications

- Banners
- Signage
- Display frame systems

### Flame Retardant Standard

- Non-FR

### Composition

- Polyester yarn
- PVC-free coating

### Coating

- Water-based
- Phthalate free

### Characteristics

- Lightweight
- Directly weldable
- Perfect for high quality digital printing
